Customs Notice No. 5 / 2017

Concerning Imposing Anti-dumping Duty on GCC Imports of Car Batteries Made in or Exported from South Korea

Pursuant to Federal Law No. (1) of 2017 on Anti-Dumping, Countervailing and Safeguard Measures, and pursuant to the decision of GCC Industrial Cooperation Committee, and further to the Federal Customs Authority’s letter No. FCA/CD/S/5/2017/2301 dated 14/06/2017 and the appended-thereto Ministry of Economy’s letter No. 1-209 /2017 dated 12/6/2017, with regard to imposing a final anti-dumping duty on GCC imports of car batteries originated in or exported from South Korea;

The following have been decided:

**Article (1)**

A final anti-dumping duty shall be imposed on GCC imports of car batteries ( SLI 35 to 115 amperes lead-acid automotive batteries) originated in or exported from South Korea under HS tariff code 85071000. The duty will remain effective for five (5) years starting June 25th 2017.

**Article (2)**

Dubai Customs shall levy an ad valorem anti-dumping duty (a percentage of the CIF value) as per the following table:
### Article (3)

The Tariff and Origin Department shall be the point of reference to address any disputes arising from the implementation thereof.

### Article (4)

This Notice shall come into force as of June 25th, 2017 and all concerned departments shall respectively take required actions as to its implementation.

---

**Ahmed Mahboob Musabih**  
Director of Dubai Customs
